

## WHO ARE WE?

### Alpaca Farmers and Retailers

Along with running PurelyAlpaca.com we greatly enjoy raising award winning alpacas in the Pacific Northwest. We believe in these special animals and their place in the future of the North American garment industry.

Alpacas are a truly renewable Earth friendly resource and a gift to the world. Our mission is to promote the many benefits of alpaca through educational outreach and outstanding products.

### Professional Service and Care

Purely Alpaca is a full service retailer who provides the professional level of service you expect when purchasing a quality product. Just like your local neighborhood retailer, we thrive based on a well earned good reputation. We will do all we can to please you and keep you as a long term customer. We strive to give you the kind of service that will have you recommending us to your friends.

As a PurelyAlpaca customer you will see products which are the leading edge of the blooming alpaca garment industry. Subscribe to our free newsletter to receive announcements of new products, offerings and enhanced personal services. We continue to seek interesting and outstanding examples of alpaca clothing for you.

### Spread the Word

Most people you meet will know little if anything about alpacas. Alpacas offer many benefits to people through their gentleness, Earth friendly aspects and healthy, superb fiber. If you love your alpaca socks or sweater or accessory, be sure to share your discovery with others. Most are quite surprised when they touch the amazing softness of alpaca.

Tell them of the soothing gentle warmth. Describe the way they keep your feet warm but not hot. You may be greatly helping others by telling them about the warmth, comfort and non-allergenic nature of alpaca fiber.

We also encourage you to send in your stories of wearing alpaca. We will post them on our website as you help us to promote the wonder of alpaca!
